

## Technology & Training Solutions

### Solutions at a Glance

Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS) is a leading national security and information technology and training solutions provider. With long standing customer relationships, Kratos specializes in the unique scale, complexity and human challenges implicit in delivering transformational solutions to the government.

### Technology & Training Solutions to Meet Government Needs

Kratos specializes in optimizing the twin domains of information technology and workforce training to help our customers achieve consistently higher levels of performance. To contribute fully to mission success, we provide solutions in several interconnected areas at the heart of operational transformation including:

#### Technology Solutions:

**Information Technology Services**  
*Ensure that IT resources are available to support the mission*

**Cybersecurity, Information Assurance (IA) & Physical Security**  
*Provide situational awareness, protection and readiness on the cyber front*

**Enterprise Information Management (EIM)**  
*Deliver the right information at the right time for better decision making*

**Network Operations**  
*Assure the availability, reliability and resiliency of the network*

#### Representative Past Performance:

- Air Force: support for largest MOSS 2007 design ever fielded for over 140,000 users
- Army: execution of Army TDMA SATCOM Maintenance for PM WIN-T
- DISA: provide the software to manage the DISA network backbone, the world's largest communications provider
- DLA: transform five stand-alone large-scale networks into one fully integrated, secure network

#### Training Solutions:

**Training Devices**  
*Design, engineer and manufacture state-of-the-art training devices*

**Learning Solutions**  
*Identifying and developing performance-driven learning solutions*

**Workforce Performance**  
*Helping high performance organizations realize the full potential of their people*

#### Representative Past Performance:

- Army: design and build more than 40 air and ground vehicle simulators
