

## ■ **Features**

The machine shop at Kratos SRE offers comprehensive machining services in a secure environment to a variety of industries. From prototype tooling, to one-off hardware, fixturing, and components, our machinists, with over 20 years of experience on average, can produce your part correctly every time. Our material machining expertise includes metals, plastics, ceramics, polymer composites, ceramic matrix composites, metal matrix composites, elastomers, and many others. In addition, we offer complete metal fabrication and comprehensive welding capabilities.

## ■ **Our Capabilities:**

- High-Speed CNC vertical
- CNC lathe
- Wire and Sinker EDM (Electro-Discharge Machining)
- High-precision lathes (10-21" swing)
- Bridgeport milling machines
- Surface grinders
- OD grinders
- Full welding capabilities
- Metal fabrication shop
